61° SIB2021 Congress

Virtual Edition
23-24
September
2021

SELECTED SESSION TOPICS:

- Metabolic rewiring in physiopathology
- Regulatory elements in signalling and networks
- Targeting metabolism in human diseases
- Crosstalk at intra and intercellular levels
- Structural and molecular bases of pathologies
- Agro-food by-products and waste for sustainable innovative applications

Confirmed Invited Speakers:

Miguel A. De la Rosa (*Sevilla*), Robert Harris (*Stockholm*),
Jens Nielsen (*Gothenburg*), Michael J. O'Donohue (*Nantes*),
Ferhan Sagin (*Izmir*), Graça Soveral (*Lisbon*),
Michele Vendruscolo (*Cambridge*)

COMITATO SCIENTIFICO-ORGANIZZATORE

Gabriella Tedeschi, Università di Milano Presidente Comitato Scientifico
Ferdinando Chiaradonna, Milano Bicocca - **Giulia Faravelli**, Pavia
Gianna Ferretti, Ancona - **Roberto Gambari**, Ferrara
Cesare Indiveri, Arcavacata di Rende - **Francesco Malatesta**, Roma La Sapienza
Marco Moracci, Napoli Federico II - **Marco Vanoni**, Milano Bicocca

Martino Bolognesi (*Milano*), Nazzareno Capitano (*Foggia*), Francesca Cutruzzola (*Roma*),
Paola Chiarugi (*Firenze*), Italia Di Liegro (*Palermo*), Gianfranco Gilardi (*Torino*),
Silvana Hrelia (*Bologna*), Mauro Maccarrone (*L'Aquila*), Eugenio Monti (*Brescia*),
Marina Porcelli (*Napoli*), Raffaele Porta (*Napoli*), Annalisa Santucci (*Siena*), Silvio Tosatto (*Padova*)

FOREWORD

Due to known sanitary restrictions, the 2021 Congress of the Italian Society of Biochemistry and Molecular Biology (SIB) will take place as a virtual edition. We are pleased to announce the new format and a series of talks and topics that for two days will cover many dynamic aspects of our biochemical community. We are confident that through the planned series of invited and Keynote lectures, six Sessions, and a roundtable on education and mentoring, the SIB community will find an opportunity to exchange openly new ideas and opportunities. Please have a look at the Program and at the means of participation that include new ways for presenting results (short videos and poster discussion virtual rooms). We look forward to a broad participation (notice that young SIB members have access at no charge), which is also open to FEBS members from all European countries.
